SAVINGS & LOAN ASSOCIATIONS

GENERAL REMARKS

In compliance with the provisions of Louisiana Revised Statutes, submitted herewith is report of the condition of the fifty-four state chartered savings and loan associations, and branches, in Louisiana, for the period ending December 31, 1985.

Total resources of the fifty-four state chartered savings and loan associations, for this period, amounted to $8,783,282,280, which was an increase of $332,854,700 since the previous year. The increase represents a 3.9 percent growth rate.

Outstanding mortgage loans, at the close of business December 31, 1985, amounted to $5,870,353,650. This was an increase of $3,536,786, or .05 percent. Loans in process were $38,885,146 at year ending December 31, 1985.

At the end of the year the associations had 924,812 shareholders, who owned $7,523,636,586 of various savings accounts or certificates for a 3.9 percent growth rate. The growth is attributed to aggressively seeking new savings accounts, expanded powers and authority for the savings and loan industry.

Regulatory net worth of state chartered savings and loans associations increased 1.5 percent for the year. As of December 31, 1985, regulatory net worth amounted to $400,335,988. Forty-eight of fifty-four state chartered associations were profitable for the year. The changes in the economy attributed to the majority of savings and loan associations being profitable for the year. The fifty-four state chartered associations for this period enjoyed a 4.55 percent ratio of net worth to total assets at year end which is well above the 3.0 percent required net worth of all federally insured associations.

Some significant changes have occurred in the major indicators. The increase in total reserves and savings accounts, as well as the stabilization in interest rates are all positive factors. If these trends continue, 1986 will, also, be a profitable year for state chartered savings and loan associations.
